

Councillor Jane Darling

I am pleased and proud to be Town Councillor for Cheriton East.

I am working with the Community Network and other Cheriton Councillors to establish a Community Forum in Cheriton.

I believe this will help to build a stronger and more resilient community in which we collaborate to plug the gaps caused by public service funding cuts, working together to benefit the residents.

My professional background is in teaching and the probation service, and I would like to use this experience in my work as a Councillor, to support young people in my ward.
